

RESTARTVET PROJECT

SUPPORTING VET TEACHERS & TRAINERS THROUGH THE DIGITAL TRANSFORMATION OF VET EDUCATION

Communication & Collaboration

Information & Data Literacy

Presentation & Multimedia Technologies

Digital Content Creation

Digital Safety & Security

Social Media Management

Virtual Collaborative learning & Co-Creation

OUTPUT 1 – PROGRESS

THE RESTARTVET PROJECT

is very proud to announce the completion of the Training Curriculum & Training Materials for VET teachers and trainers!

Our topics include Communication & Collaboration, Information & Data Literacy, Presentation & Multimedia Technologies, Digital Content Creation, Digital Safety & Security, Social Media Management,

Virtual Collaborative learning & Co-creation, Personalized Curriculum and Learning, Cloud Technologies, Artificial Intelligence and Video / Game Based learning. We are confident our range of topics can empower and motivate VET trainers and teachers to increase the digital skills and competences of their audiences and help them remain updated and aware of all new developments in a rapidly changing world.

Each module includes an introduction, learning objectives, learning content, Self-reflection activities, local examples and further resources. All materials will be shortly available in all partner languages. Follow our social media for the link to the translated materials.

In addition, the RESTART VET team had the opportunity to pilot the materials in 4 countries with very positive results. 41 people participated in 4 sets of piloting activities in Turkey, Cyprus, Italy, and Lithuania. Overall, the modules were well received with the vast majority of participants expressing a very favourable view both for the organization / administration / delivery of the piloting activities, as well as for the content and the topics covered.

TRANSNATIONAL PARTNERS MEETING

MATERA, ITALY 9-10 JUNE 2022

Our partners had an opportunity to meet for a Transnational Partner Meeting in Maratea, Italy and had a chance to discuss the progress of the project, exchange ideas and experiences from the piloting activities, offer feedback and further insights, and plan the next steps of the project.
